

## **CONVERTING CLAIMS**

Trust Online (TO) has a method to convert existing *claim* and *review data* into a new claim. Any claim that was previously submitted to the Delaware Claims Processing Facility (DCPF) for Celotex, B&W or USG can easily be searched and converted into a new claim.

The conversion process transfers existing claim data from the Source Trust to the Target Trust.

**Source Trust** – is the Trust from which the existing claim and review data are transferred.

**Target Trust** – is the Trust to which the existing claim and review data are being transferred.

### **Conversion Search**

From the Summary page, click on the **Conversion** tab on the top menu bar. See **Figure 1**

FIGURE 1

From the **Target Trust** drop-down box, select the **Trust** for which you want to submit a new claim. A claim search page will be displayed.

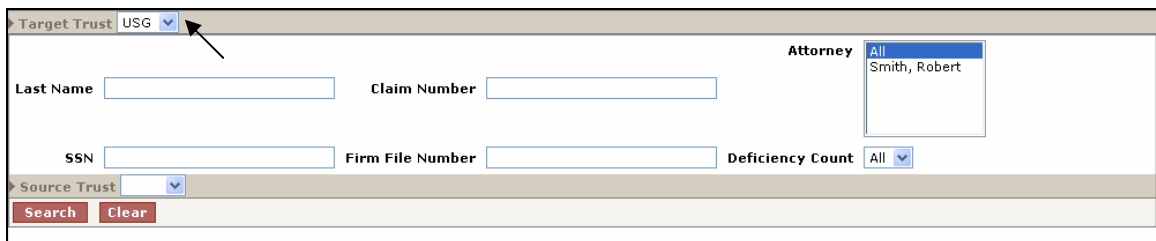

The image shows the claim search page. At the top, there is a 'Target Trust' dropdown menu with 'USG' selected. Below this are several input fields: 'Last Name', 'Claim Number', 'SSN', 'Firm File Number', and 'Deficiency Count'. There is also an 'Attorney' dropdown menu with 'All' and 'Smith, Robert' as options. At the bottom, there is a 'Source Trust' dropdown menu and two buttons: 'Search' and 'Clear'.

FIGURE 2

From here, you can search for an existing DCPF claim by typing information into the following fields – *Last Name*, *SSN*, *Claim Number*, *Firm File Number*, *Attorney* and/or *Deficiency Count*. See **Figure 2**

You may also search for Trust specific claims by selecting a Trust from the **Source Trust** drop-down box.

In the following example, we selected **USG** as the **Target Trust** and **Celotex** as the **Source Trust**. We can search for a list of existing Celotex claims by *Status Code*, *Deficiency Code*, *Alleged Injury* and/or *Claim Option*. See **Figure 3**

Target Trust: USG

**Historical Documents**  
There are no HistoricalDocuments.

Do you want to submit this Celotex Data to USG?

FIGURE 6

**Review Results** – This button provides a comprehensive break down of all of the review information entered by the Source Trust reviewers during the review process.

**Deficiencies** – In the Deficiencies section, possible deficiencies are identified which are determined during the conversion from the Source Trust to the Target Trust and these deficiencies are preceded with a "C". You may see these C-deficiencies for 100, 200, and 500 series codes. C-deficiencies should be used as a tool to make corrections before completing the conversion process.

A C-deficiency will not automatically place your claim in a deficient status. Deficiencies that are clearly source-specific (e.g., missing Celotex product ID), are not converted to the claim. However, any review deficiencies that are imported from the source data are likely to be review deficiencies for the target claim. It is also

possible that deficiencies, not identified by the system in the conversion process, will be found during the review process.

To complete the conversion process from this **Celotex** claim into a new **USG** claim, simply click on the **<Yes>** button as the answer to the question "**Do you want to submit this Celotex Data to B&W?**" See **Figure 7**

The screenshot shows the 'Trust Online' web application interface. At the top, there is a navigation bar with tabs for 'Summary', 'Claim Search', 'Feedback', 'New Claim', and 'CLTX->BW'. The user is logged in as 'Bernioz, Will' on '1.0000 2006-06-24 18:01'. Below the navigation bar, a table displays claim information:

|                |   |                          |   |
|----------------|---|--------------------------|---|
| Name           | DOE, JANE                                 | Celotex Evaluated Injury | Disabling Bilateral Interstitial Lung Dis |
| SSN            | 123456789                                 | Celotex Status           | Paid                                      |
| Date of Birth  | 10/3/1948                                 | Celotex Claim Number     | 1276439                                   |
| Status         |   | Gross Settlement Value   | \$25,750.00                               |
| Alleged Injury | Disabling Bilateral Interstitial Lung Dis | Offer Amount             | \$2,910.00                                |

Below the table is a 'Review Results' section. It includes a 'Deficiencies' table with a 'Save To File < 1 to 5 of 5 >' button:

| Deficiency Code | Description                                     |
|-----------------|---|
| C-103           | No causation                                    |
| C-502           | Possible foreign claim                          |
| C-510           | BW Exposure                                     |
| C-511           | SOE Exposure                                    |
| C-520           | Must be reviewed for "consistent with" language |

There are also sections for 'Documents' and 'Historical Documents', both indicating 'There are no documents.' At the bottom, a prompt asks 'Do you want to submit this Celotex Data to B&W?' with two buttons: 'Yes' and 'No, enter alternate data.'. An arrow points to the 'Yes' button.

FIGURE 7

### Submitting Converted Claim

After clicking on the **<Yes>** button, the system will route you to the first page of the claim. The online Claim Form is separated into tabs which closely resemble the paper Claim Form. The tabs are listed on the side of the page and are numbered 1 through 10, followed by the Documents and Finish Claim tab.

You may browse each of the claim pages by clicking on the **<Next>** button at the top of the page or go to a specific page by clicking on the respective tab on the side menu. You may add or change any information that may be pertinent to the review process for the new claim.

After checking the claim for accuracy and/or making any necessary changes, you may submit documents by creating a fax cover sheet and faxing the document to the fax number listed at the top of the page or by simply uploading the document using the **<Upload Document>** button.

Once you are completely satisfied with the claim, you may then proceed to the Finish Claim tab. From the Finish page you will have the option of *linking the claim to another Trust, saving the claim as a draft, submitting the claim without linking or canceling the claim.*

## LINKING CLAIMS

Trust Online has created a method to link claims for multiple trusts. This method provides users with the capability to submit multiple claims to multiple trusts at the same time; therefore, greatly reducing the time and effort it would take to submit new claims for each trust that resides on Trust Online.

Currently, Trust Online only provides linking between the **B&W, USG** and **AWI Trusts**. There are several options to consider when submitting and linking multiple claims:

- If the firm **has** an existing **Celotex** claim and **does not have** a **B&W, USG** or **AWI** claim, they may opt *to convert* the existing claim to **B&W, USG** or **AWI** and link them together on the Finish page of the electronic Claim Form.
- If the firm **has** an existing **Celotex** or **B&W** claim, they may opt *to convert* and *link* the **B&W** claim to a **USG** or **AWI** claim if:
  - The existing **B&W** claim is not yet in an **Offer Issued** status.
- If a firm does **not have** an existing claim for **Celotex** or **B&W**, they will need to *submit a New Claim* for either **B&W, USG** or **AWI** and link them to each other on the Finish page of the electronic Claim Form.

### **Linking Claims When Filing A New Claim**

After logging on to Trust Online, click on the **New Claim** tab on the top menu bar. This will bring you to the **Choose Trust** page.

From the Trust drop-down, select the Trust for which you wish to submit a new claim and click on **<New Claim>**. Enter all of the claim information and submit the supporting documents. *For instructions on how to submit a new claim see **2.3 New Claim Submission** on page 10 of the Trust Online User's Manual which can be found on any of the Trust's websites.*

Prior to submitting the new claim, the Finish page will display all of the Trusts the user has access to. In this example, we created a **B&W** claim and now have the option of submitting a claim for **USG** and **AWI** by clicking on the check box. See **Figure 8**

**Finish Claim**

**If you are satisfied with contents of this claim, click Submit. If you want to discard all changes you have made, click Cancel.**

If you intend to submit this information to multiple Trusts, please check the appropriate boxes below. This will link the claims. Updates to this claim will be automatically applied to all its linked claims. Claims do not have to be linked but doing so will allow updates and review decisions to be applied to all linked claims. Claims can be unlinked at any time. However, once claims are unlinked, they can not be re-linked in the future and all future responses must be submitted separately. In addition, review decisions will no longer be carried over between unlinked claims.

**Linking Claims using Conversion**

As described in the conversion section, there are several scenarios to consider when linking claims during the conversion process:

- The firm has an existing **Celotex** claim and does not have a **B&W**, **USG** or **AWI** claim:
  - Convert the Celotex claim to either **B&W**, **USG** or **AWI**;
  - At the Finish page, click the check box to link the **B&W**, **USG** and **AWI** claims;
  - Click **<Submit Claim>**. See **Figure 11**

|  |

B&W; 2039574; Ready to Review

AWI; 10000025; Review Deficient

FIGURE 12

- The firm has an existing **B&W** claim that does have a release:
  - Convert the existing claim to USG and/or AWI;
  - Click **<Submit Claim>**.

**Note:** Claims that have a release issued cannot be linked.

### Editing Linked Claims

Trust Online provides users with the capability to edit claims across multiple trusts by simply editing one of the linked claims. After editing one of the linked claims, proceed to the Finish page and submit the changes to the claim. These edits will be updated to the linked claims that are listed on the Finish page.

If the user does not want the edits to be applied to the linked claims, uncheck the box next to the Trust for which you do not want the changes applied and click **<Submit Claim>**. See **Figure 13**

**Finish Claim**

If you are satisfied with contents of this claim, click Submit. If you want to discard all changes you have made, click Cancel.

If you intend to submit this information to multiple Trusts, please check the appropriate boxes below. This will link the claims. Updates to this claim will be automatically applied to all its linked claims. Claims do not have to be linked but doing so will allow updates and review decisions to be applied to all linked claims. Claims can be unlinked at any time. However, once claims are unlinked, they can not be re-linked in the future and all future responses must be submitted separately. In addition, review decisions will no longer be carried over between unlinked claims.
