

**Armstrong World Industries, Inc.
Asbestos Personal Injury Settlement Trust**

March 28, 2025

Dear Prospective Claimant or Claimant Counsel,

The Armstrong World Industries, Inc. Asbestos Personal Injury Settlement Trust (“the Trust”) has been established under Chapter 11 of the Bankruptcy Code to resolve all “Asbestos Personal Injury Claims” as defined in the Armstrong World Industries, Inc. Plan of Reorganization (“the Plan”) caused by exposure to asbestos-containing products for which Armstrong World Industries, Inc. (“AWI”) and its predecessors, successors, and assigns have legal responsibility (“PI Trust Claims”), as provided in and required by the Plan and by the Armstrong World Industries, Inc. Asbestos Personal Injury Settlement Trust Agreement (“PI Trust Agreement”). The Trust is organized to provide fair, equitable and substantially similar treatment for all personal injury claims that may presently exist or arise in the future.

The Trust commenced its operations and began receiving claims on Monday, May 14, 2007 at 10:00 AM EST. The materials necessary to file a claim with the Trust, including Claim Forms, the Trust Distribution Procedures (the “TDP”) and associated materials, are included in this package. Copies of Claim Forms as well as these instructions and other relevant documents and reference material also are available on the Trust’s website (www.armstrongworldasbestostrust.com), and may be downloaded at any time.

This instruction letter is intended to summarize certain significant issues related to filing a personal injury claim with the Trust. *Nothing in this letter is intended to replace or modify the requirements of the Armstrong World Industries, Inc. Asbestos Personal Injury Settlement Trust Distribution Procedures (“TDP”). All claimants are encouraged to read thoroughly and understand the TDP (enclosed) before filing a claim with the Trust.*

Ordering of Claims:

Pursuant to Section 5. 1(a)(1) of the TDP, prior to the Initial Claims Filing Date (November 14, 2007), claims will be ordered for processing based on the earlier of:

- i. The date prior to the Petition Date (December 6, 2000) that the specific claim was either filed against AWI in the tort system or was actually submitted to AWI pursuant to an administrative settlement;
- ii. The date before the Petition Date that a claim was filed against another defendant in the tort system if at the time the claim was subject to a tolling agreement with AWI;
- iii. The date after the Petition Date, but before the date claim filing materials were made available (May 14, 2007), that the asbestos claim was filed against another defendant in the tort system;
- iv. The date after the Petition Date, but before the Effective Date (October 2, 2006), that a Proof of Claim was filed by the claimant against AWI in AWI’s Chapter 11 case;

- v. The date a ballot was submitted on behalf of the claimant in AWI's Chapter 11 case on behalf of the claimant for purposes of voting on the Plan in accordance with the voting procedures adopted by the Bankruptcy Court; or
- vi. The date after the Effective Date, but on or before the Initial Claims Filing Date, that the claim was filed with the PI Trust

Claims will be paid in the order in which they are evaluated and approved for payment.

Expedited Review (ER) and Individual Review (IR) Claims

Pursuant to Sections 5.3(a) and 5.3(b) of the TDP, a claimant may elect to submit a claim for either Expedited Review (ER) or Individual Review (IR). The ER process is designed primarily to provide an expeditious, efficient and inexpensive method for liquidating all categories of PI Trust claims (except those involving Lung Cancer 2 and all Foreign Claims). ER is a method of review intended for claims that can be easily verified by the Trust as meeting the presumptive Medical/Exposure criteria for the relevant disease level. ER will provide qualifying claimants fixed claims payment subject to the Payment Percentage (see Scheduled Values below). Accordingly, ER provides claimants with a less burdensome process for pursuing PI Trust claims than the IR process described below and in Section 5.3(b) of the TDP.

Alternatively, a claimant may elect to have a claim undergo the IR process if the claim does not meet presumptive Medical/Exposure criteria for any of the Disease Levels in TDP Section 5.3 or to determine whether the liquidated claims value exceeds the Scheduled Value. The IR Process provides the claimant with an opportunity for individual consideration and evaluation of the Medical/Exposure information submitted as well as the liquidated value of the claim. The IR process is intended to result in payments equal to the liquidated value for each claim multiplied by the Payment Percentage; however, the liquidated value of any PI Trust claim that undergoes IR may be determined to be less than the claimant would have received under ER. Because the detailed examination and valuation process related to IR requires additional time and effort, claimants electing to undergo the IR process may have a longer waiting period for payment than would have been the case had the claimants elected the ER process.

Settlement Offers:

Valid ER claims will be paid the following Scheduled Values, multiplied by the Payment Percentage that is effective at the time of liquidation. Disease Level I claims are not subject to the Payment Percentage.

Disease Level	Scheduled Disease	Scheduled Value
VIII	Mesothelioma	\$110,000
VII	Lung Cancer 1	\$42,500
VI	Lung Cancer 2	None
V	Other Cancer	\$21,500
IV	Severe Asbestosis	\$42,500
III	Asbestosis/Pleural Disease Level III	\$9,700
II	Asbestosis/Pleural Disease Level II	\$3,700
I	Other Asbestos Disease (Cash Discounted Payment)	\$400

The current payment percentage is 10.8%. At this payment percentage, a Mesothelioma claim paid at scheduled value will receive \$11,880, a Lung Cancer Level I claim will receive \$4,590, an Other Cancer claim will receive \$2322, etc. The payment percentage is subject to adjustment by the Trustees under the terms of the TDP. Payment will be made as soon as practicable after receipt and review of the completed Claim Forms and receipt of a fully executed release.

Proof Required to Qualify for Payment:

To qualify for payment, a claimant must provide credible medical and exposure evidence and a submission deemed to be complete by the Trust.

Medical Criteria for Qualification

The medical criteria that a claim must meet to receive an offer for the Scheduled Value are as follows:

Level VIII: Mesothelioma

1. Diagnosis of mesothelioma; and
2. Credible evidence of AWI Exposure (as defined in Section 5.7(b)(3) of the TDP).

Level VII: Lung Cancer 1

1. Diagnosis of a primary lung cancer plus evidence of an underlying Bilateral Asbestos-Related Nonmalignant Disease as defined in Footnote 3 of the TDP;
2. Six months of AWI Exposure prior to December 31, 1982;
3. Significant Occupational Exposure to asbestos as defined in Section 5.7(b)(2) of the TDP; and
4. Supporting medical documentation establishing asbestos exposure as a contributing factor in causing the lung cancer in question.

Level VI: Lung Cancer 2

1. Diagnosis of a primary lung cancer;
2. AWI Exposure prior to December 31, 1982; and
3. Supporting medical documentation establishing asbestos exposure as a contributing factor in causing the lung cancer in question.

Lung Cancer 2 (Level VI) Claims are those that do not meet the more stringent medical and/or exposure requirements of Lung Cancer 1 (Level VII) claims. All claims in this Disease Level shall undergo IR. The estimated likely average of the individual evaluation awards for this category is \$15,000, with such awards capped at \$50,000 unless the claim qualifies for Extraordinary Claim treatment.

Level VI Claims that show no evidence of either an underlying Bilateral Asbestos-Related Nonmalignant Disease or Significant Occupational Exposure may be individually evaluated, although it is not expected that such claims shall be treated as having any significant value, especially if the claimant is also a Smoker. In any event, no presumption of validity shall be available for any claims in this category.

Level V: Other Cancer

1. Diagnosis of a primary colo-rectal, laryngeal, esophageal, pharyngeal, or stomach cancer, plus evidence of an underlying Bilateral Asbestos-Related Nonmalignant Disease;
2. Six months AWI Exposure prior to December 31, 1982;
3. Significant Occupational Exposure to asbestos; and
4. Supporting medical documentation establishing asbestos exposure as a contributing factor in causing the Other Cancer in question.

Level IV: Severe Asbestosis

1. Diagnosis of asbestosis with ILO of 2/1 or greater, or asbestosis determined by pathological evidence of asbestos, plus (a) TLC less than 65% or (b) FVC less than 65% and FEV1/FVC ratio greater than 65%;
2. Six months AWI Exposure prior to December 31, 1982;
3. Significant Occupational Exposure to asbestos; and
4. Supporting medical documentation establishing asbestos exposure as a contributing factor in causing the pulmonary disease in question.

Level III: Asbestosis/Pleural Disease

1. Diagnosis of Bilateral Asbestos-Related Nonmalignant Disease, plus (a) TLC less than 80%, or (b) FVC less than 80% and FEV1/FVC ratio greater than or equal to 65%;
2. Six months AWI Exposure prior to December 31, 1982;
3. Significant Occupational Exposure to asbestos; and
4. Supporting medical documentation establishing asbestos exposure as a contributing factor in causing the pulmonary disease in question.

Level II: Asbestosis/Pleural Disease

1. Diagnosis of Bilateral Asbestos-Related Nonmalignant Disease;
2. Six months AWI Exposure prior to December 31, 1982; and
3. Five years cumulative occupational exposure to asbestos.

Level I: Other Asbestos Disease (Cash Discount Payment)

1. Diagnosis of Bilateral Asbestos-Related Nonmalignant Disease or an asbestos-related malignancy other than mesothelioma; and
2. AWI Exposure prior to December 31, 1982.

Medical Evidence Required to Establish an Asbestos-Related Disease:

All diagnoses of a Disease Level shall be accompanied by either:

- i. A statement by the physician providing the diagnosis that at least ten years have elapsed between the date of first exposure to asbestos or asbestos-containing products and the diagnosis, or
- ii. A history of the claimant's exposure sufficient to establish a ten-year latency period.

A finding by a physician after the Effective Date (October 2, 2006) that a claimant's disease is "consistent with" or "compatible with" asbestosis shall not alone be treated by the Trust as a diagnosis.

For Disease Levels I-IV – All diagnoses of nonmalignant asbestos-related disease (Disease Levels I-IV) shall be based upon a physical examination of the claimant by the physician providing the diagnosis of the asbestos-related disease

For Disease Levels V-VIII – All diagnoses of asbestos-related malignant disease shall be based upon either (1) a physical examination of the claimant by the physician providing the diagnosis of the asbestos-related disease, or (2) a diagnosis of such a malignant Disease Level by a board-certified pathologist or by a pathologist report prepared at or on behalf of a hospital accredited by the Joint Commission on Accreditation of Healthcare Organizations ("JCAHO").

In the case of a claimant who was deceased at the time the claim was filed, all diagnoses of a nonmalignant asbestos-related disease (Levels I-IV) shall be based upon either:

- i. A physical examination of the claimant by the physician providing the diagnosis of the asbestos-related disease, or
- ii. Pathological evidence of the asbestos-related disease, or
- iii. In the case of Disease Levels I-III, evidence of Bilateral Asbestos-Related Nonmalignant Disease and for Disease Level IV, either an ILO reading of 2/1 or greater or pathological evidence of asbestosis
- iv. For either Disease Level III or IV, Pulmonary Function Testing as defined in Footnote 6 of the TDP.

For a detailed description of the medical evidence requirements by Disease Level see TDP Section 5.7(a). **You should review this section of the TDP before filing a claim.**

Exposure Criteria for Qualification

Exposure to A WI Asbestos Products and Significant Occupational Exposure

As set forth in Section 5.3(a)(3) of the TDP, to qualify for any Disease Level, the claimant must demonstrate exposure to an asbestos-containing product manufactured or distributed by AWI, and for Disease Levels II, III, IV, V and VII, that exposure must be for at least six months; and (2) for Disease Levels III, IV, V and VII, a claimant must demonstrate

Significant Occupational Exposure (“SOE”) to asbestos products as described in Section 5.7(b)(2) of the TDP.

Site/Plant Where Exposure Occurred

In Part 3 of the Proof of Claims Form (“POC”) questions 1 through 4 ask about the sites where the claimant was exposed to asbestos products. In response to these questions, a claimant must list the sites where he/she was exposed to asbestos products to prove both (1) exposure to AWI asbestos products, and (2) SOE, if applicable.

There are two ways to demonstrate that AWI asbestos products were at a work site:

1. The claimant worked at a site which is listed on the approved AWI site list, found on the website at www.armstrongworldasbestostrust.com; or
2. The claimant can establish, through affidavit, invoices, deposition testimony, or other means as described below in the section “Sufficiency of Evidence” that AWI’s asbestos products were used at a particular work site. A certification of counsel alone is not sufficient to establish AWI product at a particular site. However, certification of counsel is sufficient to satisfy SOE requirements.

Significant Occupational Exposure

As noted above, questions 1 through 4 in Part 3 of the Claim Form seek information regarding SOE, as well as exposure to AWI asbestos products. Additionally, questions 5 and 6 also relate to SOE. Pursuant to TDP Section 5.7(b)(2), SOE means employment for a cumulative period of at least five years with a minimum of two years prior to December 31, 1982, in an industry and an occupation in which the claimant (a) handled raw asbestos fibers on a regular basis; (b) fabricated asbestos-containing products so that the claimant in the fabrication process was exposed on a regular basis to raw asbestos fibers; (c) altered, repaired or otherwise worked with an asbestos-containing product such that the claimant was exposed on a regular basis to asbestos fibers; or (d) was employed in an industry and occupation such that the claimant worked on a regular basis in close proximity to workers engaged in the activities described in (a), (b) and/or (c).

If a claimant worked in an occupation/industry listed on the Presumptive SOE Occupations Rating list, found on the website at www.armstrongworldasbestostrust.com, for at least five years with a minimum of two years prior to December 31, 1982, and if any box other than “None of the above” is checked in Part 3 question 6, no further evidence of SOE is required. If the claimant’s occupation/industry is not set forth on the Presumptive SOE Occupations Rating list, or if the box labeled “None of the above” is checked in POC question 6, then evidence of the claimant’s SOE must be submitted. Evidence of SOE can be demonstrated by certification of counsel or as set forth below under “Sufficiency of Evidence.”

It is only necessary for a claimant to demonstrate SOE to qualify for Disease Levels III, IV, V and VII.

Exposure to AWI Asbestos Products

If a claimant has demonstrated in response to question 1 of Part 3 that AWI asbestos products or activities were present at a site/plant where the injured party worked, the claimant must then demonstrate exposure to the type of AWI products or activities at that site/plant. This information must be provided in the additional space provided in question 1 of Part 3.

This description can be provided in several ways. If the injured party's occupation/industry at that site/plant is on the Presumed Company Exposure List, found on the website at www.armstrongworldasbestostrust.com, simply list that occupation/trade in the response. Nothing more needs to be provided.

If the occupation/industry at that site is not on the Presumed Company Exposure List, a description must be provided of the injured party's exposure to the type of AWI asbestos products or activities at that site.

If this description is already set forth in documents submitted in response to question 1 in Part 3 of the Claim Form (e.g., claimant affidavit, interrogatory answers, etc.), respond by simply referencing the documents.

Sufficiency of Evidence

Where a claimant must demonstrate that AWI asbestos products were at a site/plant, or where a claimant seeks to demonstrate SOE, such evidence may be established by:

- An affidavit of the injured party (an example is included in the filing instruction)
- An affidavit of a co-worker or the affidavit of a family member in the case of a deceased claimant
- Invoices
- Construction or similar records
- Sworn statement, interrogatory answers, work history, or deposition
- Other reliable evidence

Secondary Exposure

If a claimant alleges an asbestos-related disease resulting solely or in part from exposure to an occupationally exposed person ("OEP"), such as a family member, the claimant may file a claim for secondary exposure. A claimant with secondary exposure must establish that he or she is suffering from one (1) of the eight (8) Disease Levels described in Section 5.3(a)(3) of the TDP or an asbestos-related disease otherwise compensable under the TDP, that his or her own exposure to the occupationally exposed person occurred within the same time frame as the occupationally exposed person was exposed to asbestos products produced by AWI, and that such secondary exposure was a cause of the claimed disease.

A secondarily exposed claimant must complete Part 4 of the claim form. Any claimant alleging secondary exposure must provide the name of the OEP to whom they were exposed, the relationship to the OEP, and provide a detailed description of how they were exposed to asbestos through the OEP. For example, if the claimant was exposed doing laundry, please provide the age at which this exposure began. The secondarily exposed claimant must have been exposed to the OEP for a sufficient period of time to satisfy the TDP requirements for the alleged disease. In addition, secondary exposure claims must meet all of the medical criteria for the disease alleged, and the medical documentation must establish that such secondary exposure was a cause of the claimed disease.

Part 3 of the of the claim form must be completed for each OEP.

Releases:

A claimant accepting an offer must execute a full release for all malignancy payments, or a limited release for nonmalignancy payments. Any claimant who receives a payment for a nonmalignant injury may file a new *personal injury claim* for an asbestos-related malignancy that is *subsequently* diagnosed. Any additional payments to which such claimant may be entitled shall not be reduced by the amount of the prior payment for a nonmalignant disease.

How to Initiate a Claim:

If a claimant is qualified and elects to file a claim, he or she must file a complete Claim Form and submit all supporting documentation indicated.

A sample of the Claim Form is enclosed and may be copied to provide forms for all claimants represented by a law firm. A claimant must submit the appropriate, fully completed Claim Form, including all supporting information referenced in the form. To expedite processing, claimants are encouraged to file electronically by following the instructions at the Trust website (www.armstrongworldasbestostrust.com).

Claims can be filed electronically using the Trust Online system. To do so, download and complete the E-Filer Agreement (EFA) from the Trust website (www.armstrongworldasbestostrust.com). Once that agreement is executed, a Trust Online user ID and password will be provided to login to the system. Trust Online supports the ability to enter new claims, edit existing claims, cure deficiencies on existing claims, upload and view supporting documents and run a variety of reports on filed claims. These features are designed to simplify and expedite the claim filing process while saving time and money for all parties. Claimants and counsel are encouraged to use these online filing features.

Claims can be filed in bulk using the Trust Online Bulk Upload Tool or using web services. These tools support the submission of multiple claims quickly and efficiently. For law firms that have claimant data already in electronic form, either tool can be used to send that data to the Trust without having to retype it into Trust Online or submit paper claims. These tools also support the submission of supporting document images along with the claim records. Contact the Trust for detailed instructions on how to use the Bulk Upload Tool or web services at (866) 665-5790.

Finally, using Trust Online it is possible that claim data previously submitted to the Celotex Trust, the B&W Trust or the USG Trust can be used to expedite the preparation and review of claims for the AWI Trust. By using claim data already available in the Celotex Trust, B&W Trust or USG Trust systems, the Trust may expedite the approval of AWI claims. In no situation will using existing data negatively impact a review, nor will this information be used without the express approval of the claimant.

Where to Submit Claim Forms:

Electronic claim submissions, including document images, can be filed directly through the Trust Online system. There is no need to submit paper claims for Trust Online submissions.

However, if paper claims and documents need to be sent to the Trust, they should be addressed to:

Armstrong World Industries, Inc. Asbestos Settlement
Trust P.O. Box 1079
Wilmington, Delaware 19899-1079

Statutes of limitation on filing a claim:

To be eligible for processing, a claim must meet either:

- i. For claims first filed in the tort system against AWI prior to the Petition Date (December 6, 2000), the applicable federal, state, and foreign statute of limitation and repose that was in effect at the time of the filing of the claim in the tort system, or
- ii. For claims not filed against AWI in the tort system prior to the Petition Date, the applicable federal, state or foreign statute of limitation that was in effect at the time of the filing with the Trust. However, the running of the relevant statute of limitation may be tolled by a number of factors (see TDP Section 5. 1(a)(2)).

Doctors and Medical Facilities:

Section 5.7(a)(2) of the TDP requires that before making any payment the Trust must have reasonable confidence that the medical evidence provided in support of the claim is credible and consistent with recognized medical standards. The Trust has determined, based on currently available information, that medical reports from certain doctors and medical facilities may not meet the reliability standards of this section. *Accordingly, until further notice, the Trust will not accept medical reports from and will not process claims relying upon medical information from the following doctors and medical facilities: Dr. James Ballard, Dr. Kevin Cooper (of Pascagoula, Mississippi), Dr. Todd Coulter, Dr. Andrew Harron, Dr. Ray Harron, Dr. Glynn Hilbun, Dr. Barry Levy, Dr. George Martindale, Dr. W. Allen Oaks, Netherland & Mason, Inc., Respiratory Testing Services, Inc. and Occupational Diagnostics.*

Questions and Assistance:

If you have questions concerning these filing procedures or forms, you may reach the Trust in a variety of ways. The Trust has established a Help Line and website to report on the status of Trust operations and respond to questions. You can reach the Help Line at (800) 708-8925 or at helpline@armstrongworldasbestostrust.com. The Trust's website address is www.armstrongworldasbestostrust.com. The Trust also offers convenient web-based training for all

Trust Online users. The detailed user manual explains how to log onto Trust Online, submit a new AWI claim, convert an existing Celotex Trust, B&W Trust or USG Trust claim to an AWI claim, how to link claims, and submit documents. To access these training tools, go to www.armstrongworldasbestostrust.com and click on the Resources link. Simply download the desired information and view them at your convenience.

In addition to these resources, the Facility offers in-person training sessions at our Wilmington claims processing facility. If you or your staff is interested in attending a training session, please contact our Web Administrator at (866) 665-5790 or websupport@armstrongworldasbestostrust.com.

Sincerely,

The Armstrong World Industries, Inc. Asbestos Personal Injury Settlement Trust Trustees
